Monoprojector 30

Supporto universale da soffitto, snodato per videoproiettori.

MONOPROJECTOR 30 grazie alla sua solida struttura permette l'installazione di proiettori con peso fino a 30kg.

La versione base offre una estensione del braccio da 300 a 500mm oltre ad offrire funzioni di inclinazione del proiettore fino a 30°.

Il braccio di supporto permette la gestione nascosta dei cavi segnali all'interno del braccio stesso.

Sono disponibili estensioni della colonna opzionali per aumentarne la distanza dal soffitto.

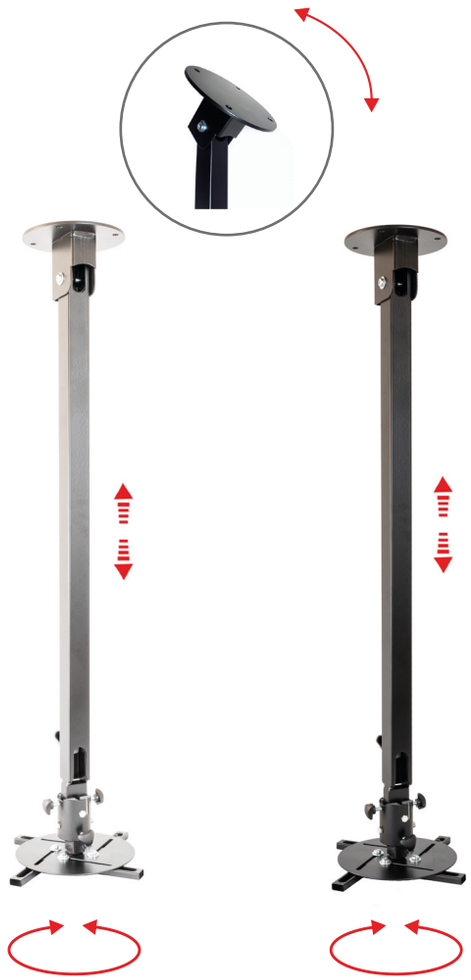

Universal ceiling support, articulated for projectors.

Thanks to its solid structure, MONOPROJECTOR 30 allows the installation of projectors weighing up to 30kg.

The basic version presents a range of extension from 300 to 500mm, and the possibility of tilting the projector up to 30°.

All unsightly cables are cleverly hidden inside the arm of the support.

Arm extensions are available to increase distance from the ceiling.
