Datasheet

Share More – Learn More

The Sharp PN-HC1 BIG PAD interactive display series enables ultra clear ‘4K Reading‘ of detailed 4K screen data and makes presenting really easy with an intuitive Pen-on-Paper user experience. It also has the tools you need for effortless productivity, such as an integrated System on Chip (SoC) PC with launcher, whiteboard, overlay and wireless sharing functionality.

It is the ideal choice for environments that require quick responsive operation, an ergonomically comfortable resolution and a range of smart collaboration features. Whether you are teaching and training, working in a meeting room or reviewing detailed documents it is great for enabling more effective learning, promoting idea sharing and encouraging group interactivity.

Benefits

Keep everyone “eyes up” – present, create and collaborate with ease and precision.

A natural Pen-on-Paper experience – using the passive pen stylus or finger to quickly highlight and annotate key information.

A flexible way to teach – having the freedom to quickly and easily share the right information in the right way.

Simply all you need – an integrated SoC (System on Chip) is included to enable effective ways of teaching and collaborative learning.

Fast, intuitive controls – all the buttons needed to adjust and optimize the performance of the display are in easy reach.
